Pairs tournament

The pairs tournament will be played over the three days of the World Cup. At the end, a final score is drawn up and a class division is made based on the number of participants and the results achieved. A maximum of 4 classes will be determined! The numbers 1 to 3 of each class receive a prize.

The couples tournament works as follows: as a couple you register at the registration table. As soon as there are two couples, these couples start throwing 5 times. Example: the two couples start on shuffleboard 1 and the couples throw alternately and controlling each other. When shuffleboard 5 has been played by both couples, the tournament card is handed in at the registration table.

You can play as a couple as often as you like, you can also form different couples with different people. The highest result is taken for the final score.

The costs for a round in the open tournament are 4 euros (2 euros per person). These must be paid at the registration table. Please remember to pay appropriately as much as possible.

Registrations WC

Registrations are steadily increasing, so be quick if you want to experience this unforgettable event!
